DIAGNOSIS

INDICES to Vol. 8 (1969)

January March May July September November

Contents of Volume 8 — DIAGNOSIS

Colour in subtraction angiography — Preliminary report
By B. Liliequist and U. Welander 1
Video tape recording in selective catheterization
By T. Drevvatne 5
Renal function before and after urography and angiography with large doses of contrast media
By O. Bartley, U. Bengtsson and G. Cederbom 9
Value of amniography in determining fetal viability
By H. Spindola-Franco, J. Ceballos-Labat and H. A. Cisneros 17
Aneurysm of the splenic artery
By E. Boijsen and H.-O. Efsing 29
Roentgenologic diagnosis of congenital pericardial defect — Description of a case
By N. E. Ahlberg, O. Bartley and S. Paulin 42
Aortic insufficiency as a complication of the aortitis syndrome
By T. Kozuka and T. Nosaki 49
Lumbar myelography with water-soluble contrast media — With special reference to the appearances of root pockets
By C. Hirsch, M. Rosencrantz and I. Wickbom 54
Size of interpeduncular, pontine, pontocerebellar cisterns and cisterna magna in childhood
By B. Carlsson and H. Lodin 65
Thrombosis of aneurysm of anterior communicating artery
By J. P. Lin 74
Radiographic method with minimal radiation dose
By O. Mattsson 81
Evaluation of the new contrast medium Urovison
By R. B. Pridie and S. Klevenhagen 87
Books received 96
Thromboembolism of leg following percutaneous catheterisation of femoral artery for angiography — Symptoms and signs
By B. Jacobsson, S. Paulin and D. Schlossman 97
Thromboembolism of leg following percutaneous catheterisation of femoral artery for angiography — Predisposing factors
B. Jacobsson and D. Schlossman 109
Angiography in acute pancreatitis
By T. Aakhus, M. Hofsli and E. Vestad 119
Epinephro-phlebography of benign tumours
By C. G. Mikaelsson 129
Normal topography of the cerebral vessels in childhood
By K. Bergström, H. Lodin and H. G. Ottander 146
Scintigraphy and angiography in demonstration of hepatic tumours
By O. Bartley, C. G. Helander, B. Rosengren and S. Stattin 161

Rheumatoid pneumoconiosis (Caplan's disease) — A report on three cases encountered in Sweden
By N. P. G. Edling, L. Ohlson and Å. Swensson 168
Cardiac lymphography in human subjects
By A. Celis, R. Cicéro, H. Del Castillo, H. Ponce De Léon, F. Vásques and D. Mijangos 177
Concretions in the pancreatic duct diagnosed by cholangiography — A case report
By Å. Andersson, C. Edström, G.-F. Saltzman and B. Schampi 183
Submucosal perforation of the esophagus in the neonate
By O. Eklöf, G. Löhr and L. Okmian 187
Angiography in primary hepatic tumours in children
By M. Fredens 193
Angiography in Wilms' tumour
By J. Folin 201
Renal pelvis appearances in nephro- and neuroblastomas — Diagnostic value of true lateral projections
By O. Eklöf and E. Lundin 209
Platelet adhesion and thrombus formation on vascular catheters in dogs
By B. Jacobsson, S. E. Bergentz and U. Ljungqvist 221
Sialography — New application of the subtraction technique
By B. Liliequist and U. Welander 228
Mandibular erosion in tumours of the major salivary glands
By W. P. Butt, L. Hollender and I. Stener 235
Vertebra plana due to histiocytosis X — Serial studies
By S. A. Kieffer, M. E. Nesbit and G. J. D'Angio 241
Concentra — A new overhead unit for roentgenography in the operation theatre
By E. Lindgren and K. J. Fenz 251
Spinal cord tolerance to roentgen contrast media particularly during aortography with temporary occlusion of the aorta — An experimental investigation in dogs
By G. Törnell 257
Book reviews 284
Effect of pretreatment with dextran 70 on platelet adhesiveness and thromboembolic complications following percutaneous arterial catheterisation
By B. Jacobsson 289
Cerebral circulation time and cerebral blood flow — Comparison of angiography and the ^{133}Xe technique
By S. Cronqvist and T. Greitz 296
Angiographic demonstration of collaterals to the coronary arteries in patients with angina pectoris
By L. Björk 305
Isotope scanning of spinal cord cysts
By T. Greitz and A. B. Ellertsson 310
Uptake of ^{85}Sr in osteoarthrosis of the spine in man
By J. C. DeFiore and B. E. R. Nilsson 321
Orbitography with water-soluble contrast media
By J. Fog and J. Lester 329
Pulmonary sequestration
By R. Köhler 337

Effects of papaverine on gastric emptying and gastric secretion in man
By D. Brömster, E. Lindgren, A. Rosén and N. Theorell 354
Projection of cineroentgen film by a TV system
By O. Mattsson 365
Dacryocystography in obstruction of the lacrimal passages
By T. Aakhus and B. Bergaust 369
Cerebral blood flow in occult hydrocephalus studied with angiography and the xenon 133 clearance method
By T. Greitz 376
Backward displacement of the upper part of the basilar artery in infantile hydrocephalus
By E. La Torre, E. Occhipinti and A. Pollicita 385
Collateral circulation between bronchial and coronary arteries — Report on two cases verified by selective catheterization of the bronchial arteries
By K.-Å. Johnsson 393
Primary malignant lymphoma of the lung
By S. E. Dahlgren and C.-O. Ovenfors 401
Anatomic and physiologic aspects of respiratory kymography
By S. Schmidt 409
Pulmonary vascular disparity in Fallot's anomaly and in simple pulmonary valve stenosis
By C. Quiroga and U. Rudhe 423
Control of a tomographic system
By O. Mattsson 433
Aerometer for estimating the concentration of modern barium meals
By O. Mattsson 446
Röntgen and the Nobel Prize — With notes from his correspondence with Svante Arrhenius
By F. Knutsson 449
Lymphographic demonstration of cisterna chyli trauma — Intralymphatic injection of patent blue violet during operation
By H. Brincker, H. Ingstrup, T. S. Jensen and H. Skjoldborg 461
Sialographic study of diseases of the major salivary glands
By S. Suzuki and K. Kawashima 465
Roentgenologic determination of calcium concentration of skeletal bone with double-beam apparatus
By K. Åstrand, N. E. Ahlberg, O. Bartley and N. Chidekel 479
Effect of secretin in celiac and superior mesenteric angiography
By R. Udén 497
Resorption of postoperative pneumoperitoneum in children
By F. Svartholm and N. Zwetnow 514
Laryngeal function in laryngocele
By Á. Kovács 519
Computer-assisted analysis of radiographically diagnosed neck lesions in chronic rheumatoid arthritis
By W. M. Park and W. O'Brien 529
Étude expérimentale et clinique de la tolérance des capillaires cérébraux pour une nouvelle substance de contraste (sels de l'acide ioxitalamique)
Par R. Gonsette et G. André-Balisaux 535
Microvascular effects of topically applied contrast media
By P.-I. Brånemark, B. Jacobsson and S. E. Sörensen 547
Book reviews 560

Subject index to Volume 8 — Diagnosis

ROENTGEN DIAGNOSIS

Nervous system

Lumbar myelography with water-soluble contrast media 54
Size of interpeduncular, pontine, pontocerebellar cisterns and cisterna magna in childhood 65
Thrombosis of aneurysm of anterior communicating artery 74
Normal topography of the cerebral vessels in childhood 146
Spinal cord tolerance to roentgen contrast media particularly during aortography with temporary occlusion of the aorta 257
Cerebral circulation time and cerebral blood flow — Comparison of angiography and the ^{133}Xe technique 296
Isotope scanning of spinal cord cysts 310
Cerebral blood flow in occult hydrocephalus studied with angiography and the xenon 133 clearance method 376
Backward displacement of the upper part of the basilar artery in infantile hydrocephalus 385
Étude expérimentale et clinique de la tolérance des capillaires cérébraux pour une nouvelle substance de contraste (sels de l'acide ioxitalamique) 535

Digestive tract (incl. biliary tract and spleen)

Aneurysm of the splenic artery 29
Angiography in acute pancreatitis 119
Scintigraphy and angiography in demonstration of hepatic tumours 161
Concretions in the pancreatic duct diagnosed by cholangiography 183
Submucosal perforation of the esophagus in the neonate 187
Angiography in primary hepatic tumours in children 193
Sialography — New application of the subtraction technique 228
Mandibular erosion in tumours of the major salivary glands 235
Effects of papaverine on gastric emptying and gastric secretion in man. 354
Lymphographic demonstration of cisterna chyli trauma — Intralymphatic injection of patent blue violet during operation 461
Sialographic study of disease of the major salivary glands 465
Effect of secretin in celiac and superior mesenteric angiography 497
Resorption of postoperative pneumoperitoneum in children 514

Heart and Vessels (incl. lymphatic vessels)

Colour in subtraction angiography 1
Video tape recording in selective catheterization 5
Renal function before and after urography and angiography with large doses of contrast media 9
Aneurysm of the splenic artery 29
Congenital pericardial defect 42

Aortic insufficiency as a complication of the aortitis syndrome 49
Thrombosis of aneurysm of anterior communicating artery 74
Thromboembolism following percutaneous catheterisation of femoral artery — Symptoms and signs 97
Thromboembolism following percutaneous catheterisation — Predisposing factors . . . 109
Angiography in acute pancreatitis 119
Epinephro-phlebography of benign tumours 129
Normal topography of the cerebral vessels in childhood 146
Scintigraphy and angiography in demonstration of hepatic tumours 161
Cardiac lymphography in human subjects 177
Angiography in primary hepatic tumours in children 193
Angiography in Wilms' tumour 201
Platelet adhesion and thrombus formation on vascular catheters 221
Spinal cord tolerance to roentgen contrast media particularly during aortography with temporary occlusion of the aorta 257
Effect of dextran 70 on platelet adhesiveness and thromboembolic complications following percutaneous arterial catheterisation 289
Cerebral circulation time and cerebral blood flow — Comparison of angiography and the ^{133}Xe technique 296
Angiographic demonstration of collaterals to the coronary arteries in patients with angina pectoris 305
Cerebral blood flow in occult hydrocephalus studied with angiography and the xenon 133 clearance method 376
Backward displacement of the upper part of the basilar artery in infantile hydrocephalus 385
Collateral circulation between bronchial and coronary arteries 393
Pulmonary vascular disparity in Fallot's anomaly and in simple pulmonary valve stenosis 423
Lymphographic demonstration of cisterna chyli trauma — Intralymphatic injection of patent blue violet during operation 461
Effect of secretin in celiac and superior mesenteric angiography 497
Étude expérimentale et clinique de la tolérance des capillaires cérébraux pour une nouvelle substance de contraste (sels de l'acide ioxitalamique) 535
Microvascular effects of topically applied contrast media. 547

Lungs, Pleura, Mediastinum and Chest walls

Rheumatoid pneumoconiosis (Caplan's disease) 168
Pulmonary sequestration 337
Primary malignant lymphoma of the lung 401
Anatomic and physiologic aspects of respiratory kymography 409

Bones and Joints (incl. soft tissue)

Mandibular erosion in tumours of the major salivary glands 235
Vertebra plana due to histiocytosis X 241
Uptake of ^{85}Sr in osteoarthrosis of the spine in man 321
Roentgenologic determination of calcium concentration of skeletal bone with double-beam apparatus 479
Computer-assisted analysis of radiographically diagnosed neck lesions in chronic rheumatoid arthritis 529

Ear, Nose and Throat

Laryngeal function in laryngocele 319

Ophthalmology

Orbitography with water-soluble contrast media 329
Dacryocystography in obstruction of the lacrimal passages 369

Uro-Genital system

Renal function before and after urography and angiography with large doses of contrast media 9
Amniography in determining fetal viability 17
Epinephro-phlebography of benign tumours 129
Angiography in Wilms' tumour 201
Renal pelvis appearances in nephro- and neuroblastomas 209

RADIOACTIVE ISOTOPES

Scintigraphy and angiography in demonstration of hepatic tumours 161
Cerebral circulation time and cerebral blood flow — Comparison of angiography and the ^{133}Xe technique 296
Isotope scanning of spinal cord cysts 310
Uptake of ^{85}Sr in osteoarthrosis of the spine in man 321
Cerebral blood flow in occult hydrocephalus studied with angiography and the xenon 133 clearance method 376

TECHNIQUE

Colour in subtraction angiography 1
Video tape recording in selective catheterization 5
Radiographic method with minimal radiation dose 81
Sialography — New application of the subtraction technique 228
Concentra — An overhead unit for roentgenography in the operation theatre 251
Projection of cineroentgen film by a TV system 365
Control of a tomographic system 433
Aerometer for estimating the concentration of modern barium meals 446
Roentgenologic determination of calcium concentration of skeletal bone with double-beam apparatus 479

CONTRAST MEDIA

Renal function before and after urography and angiography with large doses of contrast media 9
Evaluation of the new contrast medium Urovison 87

Spinal cord tolerance to roentgen contrast media particularly during aortography with temporary occlusion of the aorta 257
Orbitography with water-soluble contrast media 329
Étude expérimentale et clinique de la tolérance des capillaires cérébraux pour une nouvelle substance de contraste (sels de l'acide ioxitalamique) 535
Microvascular effects of topically applied contrast media 547

MISCELLANEOUS

Röntgen and the Nobel Prize — With notes from his correspondence with Svante Arrhenius 449

THERAPY PHYSICS BIOLOGY

INDICES to Vol. 8 (1969)

February April June August October December

Contents of Volume 8 — THERAPY PHYSICS BIOLOGY

Quantitative studies on the radiosensitivity of single cells in the nervous tissue
By O. Hallén, A. Hamberger, B. Rosengren and H. Röckert 5
Radiosensitization of malignant brain tumours with bromouridine (thymidine analogue)
By T. Hoshino and K. Sano 15
Anatomic studies of the distribution and effects of intrathecal radioactive gold
By S. A. Kieffer, E. M. Stadlan and G. J. D'Angio 27
Radiation protection in mammalian spinal ganglion cultures treated with AET derivatives
By E. B. Masurovsky and R. P. Bunge 38
Die intraselläre protrahierte Langzeitbestrahlung von Hypophysenadenomen mittels stereotaktischer Implantation von Iridium 192
Von F. Mundinger 55
Biology and morphology of glioblastoma multiforme
By K. J. Zülch 65
Angiography and cerebral blood flow in malignant glioma
By S. Cronqvist 78
Gamma-encéphalographie—Possibilités et limitations dans le diagnostic de la présence et de l'extension des glioblastomes
Par T. Planiol 86
Roentgen sensitivity of cerebral tumours and so-called late irradiation necrosis of the brain
By K. J. Zülch 92
Tumor extent as a determining factor in radiotherapy of glioblastomas
By S. Kramer 111
L'irradiation des glioblastomes multiformes—Résultats respectifs de la radiothérapie conventionelle et de la gammathérapie à propos de 87 cas
Par J. Legré, R. Amalric et J. Padaut 118
Traitement complémentaire endocrinien des tumeurs cérébrales
Par E. Bernard-Weil 126
Radiothérapie des glioblastomes de l'adulte et de l'enfant
Par M. Schlienger 134
Neurosurgical considerations and chemotherapeutic aspects
By M. David and J. P. Constans 147
Discussion to Round Table Conference 161
Gastric ulceration following cobalt teletherapy—Estimation of the tolerance dose
By B. Sylvén, K. J. Vikterlöf and L.-B. Schnürer 183
Triiodothyronine uptake test in gynecologic radiation therapy
By L. Laakso, T. Nikkari and M. Grönroos 189

Myometrial blood flow studies in carcinoma of the corpus uteri — A preliminary report on the clearance method using xenon 133
By C. Nyström, L. Forsman and B. Roos 193
Significant factors in red cell mass changes after fractionated local radiotherapy
By S. H. Levitt, E. N. Brandt Jr and C. R. Bogardus Jr 199
Retention of cobalt in experimentally induced kidney disease — Studies of ^{60}Co in irradiated and sublimate-poisoned mouse kidney
By H. A. Salmi and I. Lindgren 208
Radiation-induced release of catecholamines from perfused bovine adrenal gland
By Z. Deanović and T. S. Veninga 215
Labelled compound related to Synkavit and its uptake in certain human tumours studied by radio-isotope scanning
By D. H. Marrian, J. S. Mitchell, C. H. Bull, E. A. King and K. F. Szaz . . . 221
Changes in tumor oxygen tension during radiation therapy
By A. O. Badib and J. H. Webster 247
Report of ICRP Meeting April 1969 258
Book reviews 259
Effects of proton and roentgen radiation on the rectum of the rat
By S. Sténson 263
Formula for the effect on roentgen ray depth dose of a change in focal distance
By W. Jackson 279
Interstitial irradiation of the pituitary gland with a ^{90}Sr—^{90}Y applicator having adjustable active length
By N. E. Bärring, A. Holmér, G. Notter and B. I. Rudén 294
EEG effects of postoperative irradiation treatment of brain tumours
By C. H. Håkansson, M. Lindgren and I. A. Sulg 301
Radiation tolerance of the skin
By C. F. von Essen 311
Dose rates and field homogeneity of Siemens 42 MeV betatron
By J. Rassow 331
Dose rate measurements in bladder and rectum — Intracavitary radiation of carcinoma of the uterine cervix
By I. Joelsson and A. Bäckström 343
Pelvic dosimetry during radiotherapy of carcinoma of the cervix uteri
By J. M. Johansson, B. Å. A. Lindskoug and C. E. Nyström 360
Recurrent cancer of the corpus uteri — Clinical features and prognosis
By S. S. Kurohara, A. O. Badib, A. A. Beitia and J. H. Webster 373
Hodgkin's disease — Retrospective clinicopathologic study in 149 patients
By T. Landberg and L.-E. Larsson 390
Pregnancy following treatment of mammary carcinoma
By P. M. Rissanen 415
Weight change and mortality of rats after abdominal proton and roentgen irradiation — A comparative investigation
By S. Sténson 423
Transistorised, battery-operated 'door-post' radiation alarm monitor, with audible and visual warnings
By L. A. W. Kemp 433

Reticulum cell sarcoma treated by radiotherapy — Significance of clinical features upon the prognosis
By H. Sand Hansen 439
Clinical and radiotherapeutic aspects of reticulum cell sarcoma
By U. Tikka and K. Malmio 459
Large dimensional multifocus radiation source in subcutaneous sieve therapy
By P. Klami and P. Ruotsalainen 471
Laterally scattered radiation used in superficial roentgen therapy
By P. L. Barbieri, S. Mazzola and F. Sabatini 480
Clinical course of Hodgkin's disease treated with radiotherapy
By T. Landberg 487
Recurrent cancer of the corpus uteri — Clinical significance of the relationship between survival and recurrence time
By M. A. Selim, S. S. Kurohara, A. O. Badib and J. H. Webster 505
Selective uptake of a radioactive drug into human tumour cells growing in tissue culture
By P. P. Dendy 513
Chromium-51-EDTA in the determination of glomerular filtration rate
By T. G. Brien, R. O'Hagan and F. P. Muldowney 523
Tumor cells in peritoneal rinsing fluid
By B. Lindqvist, G. Michaelson, N.-E. Säterborg and T. Ångström 530
Book review 534

Subject index to Volume 8 — Therapy Physics Biology

Radiotherapy

Die intraselläre protrahierte Langzeitbestrahlung von Hypophysenadenomen mittels stereotaktischer Implantation von Iridium 192 55
Roentgen sensitivity of cerebral tumours and so-called late irradiation necrosis of the brain 92
Tumor extent as a determining factor in radiotherapy of glioblastomas 111
L'irradiation des glioblastomes multiformes 118
Traitement complémentaire endocrinien des tumeurs cérébrales. 126
Radiothérapie des glioblastomes de l'adulte et de l'enfant 134
Gastric ulceration following cobalt teletherapy 183
Triiodothyronine uptake test in gynecologic radiation therapy 189
Significant factors in red cell mass changes after fractionated local radiotherapy . . . 199
Changes in tumor oxygen tension during radiation therapy 247
Effects of proton and roentgen radiation on the rectum of the rat 263
EEG effects of postoperative irradiation treatment of brain tumours 301
Radiation tolerance of the skin 311
Recurrent cancer of the corpus uteri — Clinical features and prognosis 373
Hodgkin's disease — Retrospective clinicopathologic study in 149 patients 390
Pregnancy following treatment of mammary carcinoma 415
Reticulum cell sarcoma treated by radiotherapy 439
Clinical and radiotherapeutic aspects of reticulum cell sarcoma 459
Laterally scattered radiation used in superficial roentgen therapy 480
Clinical course of Hodgkin's disease treated with radiotherapy 487
Recurrent cancer of the corpus uteri 505

Chemotherapy

Neurosurgical considerations and chemotherapeutic aspects of glioblastoma 147

Radioactive isotopes

Anatomic studies of the distribution and effects of intrathecal radioactive gold. 27
Die intraselläre protrahierte Langzeitbestrahlung von Hypophysenadenomen mittels stereotaktischer Implantation von Iridium 192 55
Gamma-encéphalographie 86
Gastric ulceration following cobalt teletherapy 183
Myometrial blood flow studies in carcinoma of the corpus uteri 193
Retention of cobalt in experimentally induced kidney disease 208

Labelled compound related to Synkavit and its uptake in certain human tumours studied by radio-isotope scanning 221
Interstitial irradiation of the pituitary gland with a ^{90}Sr—^{90}Y applicator 294
Selective uptake of a radioactive drug into human tumour cells growing in tissue culture 513
Chromium-51-EDTA in the determination of glomerular filtration rate 523

Radiophysics

Formula for the effect on roentgen ray depth dose of a change in focal distance . . . 279
Interstitial irradiation of the pituitary gland with a ^{90}Sr—^{90}Y applicator 294
Dose rates and field homogeneity of Siemens 42 MeV betatron 331
Dose rate measurements in bladder and rectum — Intracavitary radiation of carcinoma of the uterine cervix 343
Pelvic dosimetry during radiotherapy of carcinoma of the cervix uteri 360
Large dimensional multifocus radiation source in subcutaneous sieve therapy 471
Laterally scattered radiation used in superficial roentgen therapy 480

Technique

Transistorised, battery-operated 'door-post' radiation alarm monitor, with audible and visual warnings 433
Laterally scattered radiation used in superficial roentgen therapy 480
Tumour cells in peritoneal rinsing fluid 530

Radiobiology

Quantitative studies on the radiosensitivity of single cells in the nervous tissue 5
Radiosensitization of malignant brain tumours with bromouridine (thymidine analogue) 15
Radiation protection in mammalian spinal ganglion cultures treated with AET derivatives 38
Biology and morphology of glioblastoma multiforme 65
Retention of cobalt in experimentally induced kidney disease 208
Radiation-induced release of catecholamines from perfused bovine adrenal gland . . . 215
Labelled compound related to Synkavit and its uptake in certain human tumours studied by radio-isotope scanning 221
Effects of proton and roentgen radiation on the rectum of the rat 263
Radiation tolerance of the skin 311
Weight change and mortality of rats after abdominal proton and roentgen irradiation . 423
Selective uptake of a radioactive drug into human tumour cells growing in tissue culture 513

Radiation protection

Radiation protection in mammalian spinal ganglion cultures treated with AET derivatives 38

Miscellaneous

Angiography and cerebral blood flow in malignant glioma 78
Traitement complémentaire endocrinien des tumeurs cérébrales. 126
Report of ICRP Meeting April 1969 258

Book reviews

Tumours of the thyroid gland 259
Prognostic factors in breast cancer 259
Malignant tumours of the thyroid gland 260
Clinical and radiobiological properties of melanoblastoma 261
Radium dosage — The Manchester system 261
Radioatoms in nuclear medicine 262
Radiological physics 534
